March Webinar: The EMF Rx

March Webinar: The EMF Rx.
There are so many gems in this webinar. Together, we're going to connect some pretty important dots to help you on your road to optimal.

- Why people on the Paleo diet often experience **increased constipation**
- How **fluoridated water is causing DEHYDRATION**, and how dehydration is at the root of all sorts of neolithic diseases, in a sense, making them chronic because syndromes persist when you're in a dehydrated state
- How **fluoridated water weakens the blood-brain barrier**, allowing toxins normally excluded from the brain's circulation to enter (Dr. Kruse believes fluoridated water to be the #1 cause of leaky gut in our modern world)
- How **high LDL cholesterol levels are tied to hypothyroidism**
- How **EMF exposure** is tied to increased cancer risks, **childhood leukemia**, headaches, "aging" diseases like Alzheimers and dimentia, and other disorders
- How **children's brains are affected** by pulsed EMF – DANGEROUSLY
- Why LDL levels rise so often with a Paleo diet
- **Why the HCG diet works** in many men and women

This webinar is rich with content, and Dr. Kruse is going to review the **three main legs to the stool for creating optimal health** – they're simple, yet profound, and could very well give you the breakthrough you've been looking for to super-charge your quest to optimal! He's going to outline for you the **EMF Prescription** and unload so much goodness in this webinar, your head will spin with delight!
