

# Quantum Thermodynamics #2: Why stopping oral vitamin D3 in a 5G world is wise

Why shouldn't you take oral Vitamin D3 to replace the sunlight you are not getting? Here is the black swan mitochondriac postion because of the information quanta: Cholesterol sulfate is also synthesized in the skin by UV light exposure of the skin.....so if you do not get the UVA and UVB light frequencies in diurnal fashion, you get lack of sulfation in the skin and blood. This affects all things in the skin and blood. The picture below shows the effect.
